

No.	Title	Student's name	Degree
1	effect of local exogenous application of myrrh and sage oil on incisional wound healing	Nawar Bahjet	Master
2	assessment of immunohistochemical expression of masipin and mtal proteins in salivary mucopidermoid carcinoma with special emphasis on histologic	Omar ibraheem Ahmed	Master
3	assessment of salivary interlerukin-17 interleukin -22 and interleukin-33 in relation to the clinical features and pathogenictiy	Maher Kamal Jasim	Master
4	determination of the anatomical variation in greater palatine canal and foramen by using cone beam computed tomography in bagedaed city	Weaam Hemood Abdullah	Master
5	immunohistochemical expression of oxidative stress markers keep1 , nrf2, antioxidants PPIA, PRDX6 in oral squamous cell carcinoma in relation to (angiogenesis invasion and metastasis) assessed by VEGF C and integrin β 1 in comparison to normal oral mucosa	Mostafa Ghani Taher	PhD
6	assessment of	Mohsed Hameed	PhD

	salivary composition and detection of immunological markers in serum and saliva of patients with systemic in relation to oral		
7	assessment of dental implant site dimension and alveolar bone density of the mandible using cone beam computed tomography	Omran Khalaf Kareem	Master
8	marginal and internal of full contour zirconia crowns using different digital intraoral scanners	Zahraa Raheem Abd	Master
9	radiographic assessment of the roots of maxillary posterior teeth in relation to the floor of maxillary sinuses and bone thickness toward buccal and palatal cortical plates using cone beam computed	Ali Hakeem	Master
10	assessment of metal ions release and corrosion behavior of orthodontic miniimplants in fluoride mouthwashes	Hasaneen Hadi Abodi	Master
11	the effect of root canal instrumentation with their rotary systems on the pushout bond strength of guttafusion versus single cone	Rafel Saeed Ameen	Master

	obturation technique		
12	evaluation of cinnamon ethanolic extract as endodontic irrigation solution	Alaa MAhdi	Master
13	in vitro comparison assessment of the effect of guttafusion obturation on the push out bond strength of type of sealer	Ahmed Abdul Zahra	Master
14	comparative evaluation of the marginal and internal fitness of monolithic zirconia crowns fabricated from different conventional impression techniques and digital impression using silicone replica	Zainab Tariq	Master
15	oral findings and oxidative stress status in hypertensive patients on amlodipine and captopril treatment	Bahaa Noor Madloom	Master
16	oral findings, oxidative stress and antioxidant biomarkers in serum and saliva of Crohn's patients in relation to treatment modalities	Zainab Kudhair	Master
17	radiological evaluation of the anatomic characteristics of lingual foramina and their vascular	Fatima Mohamed	master
